

COMPREHENSIVE BIOENERGETIC SCAN

CLIENT: JOHN SMITH

DOB: 2/2/2022

Bio-energetic testing aims to identify numerous types of energetic stressors to which the body's energetic field can learn better adaptive behaviors.

Each item in your report, whether it be a resonating toxin, nutrient, or any other energetic signature, is indicating that during the testing process, an energetic "reaction" occurred.

This simply means that while the biological samples were being evaluated, the innate intelligence found the energetic signature useful in addressing a noted disturbance it is attempting to correct.

This report is not diagnostic and is for educational purposes only and is not intended to replace the recommendation of your healthcare provider.

IMPORTANT NOTES

- When beginning any new supplement/homeopathic/energetic tincture begin with half the dose for the first 3 days. If all goes well work your way up to the full dose.
- Homeopathics and energetic imprints: Place all under tongue and hold for 30 seconds before swallowing. Homeopathics should be taken 30 minutes away from food and drink.
- Support your body daily with proper hydration (1/2 your body weight in ounces per day), movement, restorative sleep, sunshine, and a nutrient dense diet.
